

## Product Data Sheet

### SHEPCO™ CHLORIDE

Cobalt chloride ( $\text{CoCl}_2 \cdot 6\text{H}_2\text{O}$ ) is a product that is widely used in the manufacture of moisture indicators, tyres, paints and pigments.

CAS: Cobalt Chloride Hexahydrate 7791 - 13 - 1

EINECS: Cobalt Chloride Hexahydrate 231 - 589 - 4

Cobalt chloride is also available as a solution.

### Available Grades

#### Technical Grade (TG)

This crystal grade is a high purity product with low impurities such as copper and iron and a cobalt content of 23 - 25%.

This makes it suitable for use in a wide range of applications, including the manufacture of moisture indicators, paints and pigments.

#### Solution Grade (Solution TG)

As with the crystal grade, this solution is a high purity product with low impurities such as copper and iron and a cobalt content of 11.5 - 13%.

This makes it suitable for use in a wide range of applications, including the manufacture of car tyres.
